

8 STEPS IN MAKING A “MICRO PLAN”

Selection of panchayat for micro planning exercise

- ⌘ Good relationship with a grassroots NGO.
- ⌘ Good rapport with the people based on trust and support.
- ⌘ Contact with community based organization - Nehru Yuvak Mandal, Mahila Mandal, etc.

Environment Building

- ⌘ Use of poster and banner.
- ⌘ Identification of volunteers and train them .
- ⌘ Meetings with community members of all 11 wards of Kehar panchayat.

Collection of data, its tabulation and analysis

- ⌘ Collection of Socio-economic data through house hold survey. (questionnaire)
- ⌘ Tabulation of the data to make it easily understandable.
- ⌘ Situational analysis - to understand the present in order to plan for the future.

Sharing of the findings with the people

- ⌘ Use of graphical illustrations on flip charts.
- ⌘ Analysis of the village land use map.
- ⌘ Discussion on the emerging problems.

Community problem analysis, identification of development priorities

- ⌘ Community problem analysis done through meetings at village level .
- ⌘ Based on the problems and needs identification of development priorities by the villagers through wall charts.

Identification of solutions and strategies

- ⌘ Based on the priorities, strategies evolved to overcome the problems faced by the people. Eg: drinking water, road construction.
- ⌘ Formation of village development committee to formulate and implement plan.

Preparation of micro plan

- ⌘ Consolidation of all the village level plans at the panchayat level.

Implementation

- ⌘ Village Development committees along with Panchayat to implement the plan.

THANK YOU
